

# HOAC 2020

**The 7th International Hydrology, Ocean and Atmosphere Conference (HOAC 2020)** will be held from July 24-26, 2020 in Guilin, China. This Conference will cover issues on Hydrology, Ocean, Atmosphere, and other related topics. It dedicates to creating a stage for exchanging the latest research results and sharing the advanced research methods in related fields.

## CALL FOR PAPERS

**C o n f e r e n c e D a t e :** July 24-26, 2020

**V e n u e :** Guilin, China

**R e g i s t r a t i o n D e a d L i n e :** July 24, 2020

### Topics of interest for submission include, but are not limited to :

**Hydrology**  
Hydrochemistry  
Hydrographic Survey  
Hydrography  
Hydrological Graphics  
Hydrology  
Hydrometeorology  
**Marine Science**  
Marine Biology  
Marine Ecology  
Marine geodetic information systems  
Marine Geography and Estuary Coast  
Marine Geophysics  
Marine GIS and data fusion  
Marine Meteorology  
Marine Science  
Marine survey and monitoring  
Ocean circulation and atmospheric circulation  
Ocean color and hyperspectral measurements  
Ocean Data Visualization  
Ocean Observing Platforms  
Oceanographic Physics  
Physical Oceanography  
Polar Scientific  
**Atmospheric Sciences**  
Air / sea interaction  
Applied Meteorology  
Atmosphere and climate models  
Atmospheric Boundary Layer Physics  
Atmospheric Chemistry  
Atmospheric dynamics  
Atmospheric Physics  
Atmospheric radiative transfer  
Atmospheric Sciences

## Publication and Presentation

**Publication:** Open Access Journal.

**Index:** CNKI and Google Scholar

**Note:** If you want to present your research results but do NOT wish to publish a paper, you may simply submit an Abstract to our Registration System.

## Venue

Located in the northeast of Guangxi Zhuang Autonomous Region in south China, Guilin is considered to be the pearl of China's thriving tourist industry on account of the natural beauty and historic treasures. Covering an area of about 27,800 square kilometers (10,734 square miles), the city is rather compact when compared with other major tourist cities in the country. The stunning landscape in which the city is situated has a kind of magic that is all its own. The strangely shaped hills or karsts, with the verdant vegetation ranging from bamboos to conifers together with crystal clear waters and wonderful caves make the city such an appealing destination. It is also an important cultural city with a history of more than 2,000 years. The city has been the political, economic and cultural center of Guangxi since the Northern Song Dynasty (960-1127).
