

ISE 2020

CALL FOR PAPERS

International Symposium on Econometrics (ISE 2020) will cover issues on Econometrics and dedicate to creating a stage for exchanging the latest research results and sharing the advanced research methods.

C o n f e r e n c e D a t e : July 24-26, 2020

V e n u e : Guilin, China

Publication and Presentation

Topics of interest for submission include, but are not limited to :

Econometrics
Econometrics and statistics
Multidimensional data analysis
Financial engineering
Operational research
Financial mathematics and insurance
Business informatics
Least squares
Variables estimators
Inference and prediction
Nonlinear regression models
Heteroscedasticity
Serial correlation
Systems of regression equations
Simultaneous-equations models
Maximum likelihood estimation
Time-series models
Models for discrete choice
Probability and distribution theory
Large sample distribution theory
Computation and optimization

Publication: Open Access Journal.

Index: CNKI and Google Scholar

Note: If you want to present your research results but do NOT wish to publish a paper, you may simply submit an Abstract to our Registration System.

Venue

Located in the northeast of Guangxi Zhuang Autonomous Region in south China, Guilin is considered to be the pearl of China's thriving tourist industry on account of the natural beauty and historic treasures. Covering an area of about 27,800 square kilometers (10,734 square miles), the city is rather compact when compared with other major tourist cities in the country. The stunning landscape in which the city is situated has a kind of magic that is all its own. The strangely shaped hills or karsts, with the verdant vegetation ranging from bamboos to conifers together with crystal clear waters and wonderful caves make the city such an appealing destination. It is also an important cultural city with a history of more than 2,000 years. The city has been the political, economic and cultural center of Guangxi since the Northern Song Dynasty (960-1127).
